

**Postdoctoral Scholar  
Bixby Center for Global Reproductive Health**

The UCSF Bixby Center for Global Reproductive Health has an opening for a postdoctoral scholar in contraceptive research. The scholar will be involved in conducting research studies, scientific oversight, writing proposals, protocols, conference presentations and submitting manuscripts for publication. Applications from the disciplines of demography, sociology, epidemiology, public health, health services research and health economics are welcomed. The position requires outstanding academic writing skills and a strong background in epidemiologic study design and quantitative data analysis, including hierarchical, longitudinal analysis. The scholar will be part of the research team of Dr. Cynthia Harper, and will work with our large and multidisciplinary team to design and field studies. Candidates must be within 3 years of receipt of PhD degree. One-year position with possibility of renewal for two additional years. Interested candidates should submit the following materials to Maya Blum at [maya.blum@ucsf.edu](mailto:maya.blum@ucsf.edu): current curriculum vitae, two academic letters of reference and a cover letter describing qualifications, interests and availability. Screening of applications will begin on April 15, 2016 and continue until the position is filled. Candidates must be U.S. citizens or Permanent Residents at the time of application.
